

Selfie to headshot in WPP Open

JAN 2026

Burson heashot | Creative Studio | Image

Burson

Edit the Style Block (prompt)

1. **Open** WPP Open Image.
2. **Select Nano Banana Pro (under Google)** as the model.
3. **Screenshot** the headshot reference on the next page and upload your selfie and the reference to **'Input image'** to **Nano Banana Pro. Rename the screenshot file to REF**
1. **Copy and paste** the Style Block (prompt to the right) into the prompt space.
2. **Edit** the part in **red** to change clothing.
3. **Hit 'Generate'**.
4. **Repeat** until desired headshot has been generated ensuring it fits the **Burson Style**.

Warning: The first result **may not hit the mark**, keep regenerating until you've got an headshot that fits the Burson style. You do not need to change the prompt. Find the Burson guidelines on people imagery [here](#) on the brand hub.

[P1—STRUCTURE]

Camera: high-end full-frame digital camera, clean studio portrait look

Lens: fast 85mm portrait prime (50–85mm feel, gentle compression)

Shot: eye-level, mid-length portrait framed from mid-torso up, subject centered or slightly off-center, subtle 3/4 angle

Focus: subject's face as primary focus, eyes tack-sharp with softly blurred background (shallow depth of field)

Motion: mostly still, with slight natural movement in hair or hands for spontaneity

Lighting: soft directional studio light from one side, warm tone, gentle falloff and a soft shadow cast on the backdrop

Environment: minimal studio setup with smooth warm-light-beige background, no props, faint shadow halo behind subject

Color: warm, muted neutrals with a pop of color from wardrobe; natural skin tones, rich blacks and deep blues

Grade: modern editorial filmic grade, slightly warm, moderate contrast, subtle highlight roll-off, very light grain

[P2—STYLE ANCHOR]

Visual reference: clean studio editorial headshots reminiscent of contemporary fashion and business magazine portraits, reference file [REF].

Style intensity: strong

[P3—VISION]

Emotional intent: "warmly confident, modern, creative professionalism."

[CONTENT SLOT]

Depict: Transform my selfie into a crisp, professional headshot suitable for a creative professional. Professional, with strong shadows and a warm hue. My posture is confident and approachable, wearing a **WHITE T-SHIRT**. The background a plain warm-white backdrop with a shadow effect close behind subject like you would see in high flash photography

[P4—REFINEMENT]

Negative: avoid cluttered backgrounds, heavy makeup, harsh or mixed lighting, strong shadows across the face, lens distortion, exaggerated wide-angle perspective, oversaturation, visible text, logos, or graphic elements.
